

200 modular channel LOW

Linear evacuation by superficial drainage channels with grills.

These channels can be placed in flat open areas without digging limitations. To use in garages, yards, terraces, balconies, multi-storeyed car parks.

Material: PVC

Marking: CE.

Features:

- self supporting
- modular coupling by pins
- possibility to glue the components to ensure a higher water tightness
- a cover can be fastened by means of self-threading screws (preset holes).

N.B. Use solvent cement for PVC to weld the channels (Reference COLLA00 - COLLA25 - COLLA12).
