

PVC-U Pipes, Fittings and Valves

Aquapark Reimagined:

From Reconstruction to Innovation the Public Sports Center Požarevac

Reconstruction and Construction of a New Aquapark at the Public Sports Centre in Požarevac.

A complete modernisation and expansion of the aquatic facilities, using PVC-U technology solutions to ensure efficiency and certified safety.

Alex Engineering & Construction carried out the full installation for the end customer, delivering a modern and efficient hydraulic system tailored for aquapark operations.

Builder	Alex Engineering & Construction
Location	Požarevac - Serbia
Items	PVC-U pipes and fittings Butterfly valves Ball valves
Application	Industry
Year	2024

Technical Details of the Project

- Material: PVC-U
- Pipe diameters: d50 to d315 mm
- Butterfly valves FE series
Diameters: d160, d280, d315 mm
Equipped with reducer
- Ball valves: VEE series
- Fittings: Complete range in PVC-U

Operating conditions:

- Pressure: 4–6 bar
- Water temperature: max 25°C

Letter of reference

We, ALEX E&C DOO BEOGRAD, having its registered seat in address KARADORĐEVA 40, Belgrade, Serbia, do hereby confirm following:

That we have installed for the public swimming pool projects in the central and North part of Serbia, in the last 3 years a large number of PVC-U pipes, fittings and valves manufactured by Lareter-FIP Formatura Iniezione Polimeri Spa.

We are definitely satisfied with the quality and performance of the above-mentioned products and especially with the flexibility of the pipe, the advantages of reduced pressure loss and the ease of installation.

Consequently, the products made by Fip Spa are certainly highly considered for our possible future projects and/ or improvements-, refurbishments work.

Should you require any additional clarification, do not hesitate to contact us!
