

Casella, 17 February 2022

Dear Colleagues,

The ongoing worldwide crisis on raw materials is leading to severe shortage of several compounds of which the **polyvinylidene fluoride (PVDF)** polymer as well.

Thanks to its high performance and consequent wide use in all industrial sectors, from the piping system to e-mobility, **PVDF** is suffering from an unprecedented crisis of availability, which impacts both our reality and the producers of raw material.

Beside this the global crisis in transport is affecting the entire Supply Chain.

Aliaxis is making every effort to ensure **the procurement and the supply of material** through high-level qualified Partners. Despite this, the availability and delivery times of our products may undergo **important variations** even on a daily basis.

Therefore, please get in touch with your Sales Representative or with our Supply Chain during the placement of the order, to have an **updated situation** regarding our availability and timing of supply.

With the aim of keeping on providing materials and solutions for ongoing projects, we will guarantee our availability to identify **possible alternatives** suitable to every application.

For any further information you may need, please contact our EMEA Product Manager Mrs. Giulia Lecchi at glecchi@alixis.com

Best regards,

Industry Segment Director EMEA

Vittorio Poggi
