Subj: PPH pipe made in Aliaxis

Dear Colleague,

It is our great pleasure to inform you that the project about the **new FIP branded PPH pipe** made internally in Aliaxis is completed.

The pipe is in production in Okondo plant, and the stock rotation is going to be completely finalized in two months.

At the moment the range internally produced with FIP brand corresponds to the fast moving diameters (**SDR 11 from d20 up to d160**).

Up to now, this pipe has always been provided to us by the supplier Simona: this internal production is therefore a big step for Aliaxis, since it allows us to start detaching ourselves from external suppliers.

This item is made of high quality PP homopolymer and has already obtained the KTW-BWGL certification for plastics in contact with drinking water.

As regards the launch, it has been decided to keep the same current commercial codes, but to change technical ones:

SDR	Diameter	FIP New Commercial code	FIP New Technical code
11	20	PIPEM11020	ZTUIIMFFPN10FIP
11	25	PIPEM11025	ZTUIIMGGPN10FIP
11	32	PIPEM11032	ZTUIIMHHPN10FIP
11	40	PIPEM11040	ZTUIIMIIPN10FIP
11	50	PIPEM11050	ZTUIIMJJPN10FIP
11	63	PIPEM11063	ZTUIIMLLPN10FIP
11	75	PIPEM11075	ZTUIIMNNPN10FIP
11	90	PIPEM11090	ZTUIIMPPPN10FIP
11	110	PIPEM11110	ZTUIIMQQPN10FIP
11	125	PIPEM11125	ZTUIIMRRPN10FIP
11	140	PIPEM11140	ZTUIIMSSPN10FIP
11	160	PIPEM11160	ZTUIIMTTPN10FIP

For any further information you may need, please contact our EMEA Polyolefins Product Manager Mrs. Giulia Lecchi at glecchi@aliaxis.com.

Best regards,

Industry Category Manager pipe and fittings EMEA

Luca Palman
